

Shared Living

ABOUT THE PROGRAM

In the Incompass Shared Living model, an individual lives in a natural setting of a home-provider family. Here, they can continue to be part of family life, while figuring out the next phase of their life. This model of living allows us to help identify the best match that meets the needs, values, and vision of the individuals, the guardian, and that of the provider family.

BENEFITS OF BEING A SHARED LIVING PROVIDER

-  **Get More Flexibility & Time at Home**
Being a shared living provider allows for more flexibility than the typical 9-5. You work when you're needed, not when required, doing what doesn't feel like work at all.
-  **Find Fulfillment & Reward**
You'll get personal fulfillment from helping someone grow by providing them with the opportunity to build meaningful relationships and live a more productive life.
-  **Learn New Life Skills & Training**
From case management to training and oversight, you'll receive the tools and comprehensive support you need to continue feeling confident and qualified as a care provider.
-  **Achieve Greater Financial Stability**
Between monthly tax-exempt stipends to opportunities for respite, you could earn up to \$40,000 a year as a care provider. You'll also reap the benefit of sharing the cost of household expenses.
